

Ozma Houck

Curriculum Vitae

PhD Student
Economics, Climate Science, and Machine Learning

Education

PhD in Economics (In Progress)
Focus: Climate Economics and Machine Learning

Research Interests

- Climate economics and environmental policy
- Machine learning applications in climate science
- Computational economics and modeling
- Data-driven approaches to sustainability

Teaching Experience

Teaching Assistant
Various courses in economics, statistics, and computational methods

Skills

- Programming: Python, R, Julia
- Machine Learning: TensorFlow, PyTorch, scikit-learn
- Economics: Econometric modeling, climate economics
- Data Analysis: Statistical modeling, data visualization
